Sir,

M-D-7879 Seri.41-29-14

We thank you for your letter of the 13th instant and note contents. We have also received a letter from Mr. Faber giving a few details of the interview he has had with you and the First Member of Council & Finance Minister. Mr. Faber's writings to us, however, do not reach that point which would enable us to gather definitely whether or not the Government of His Highness the Maharaja are interested in the scheme on the lines of our letter of the 28th November last and we venture to suggest that a further meeting should be arranged between representatives of your Government and representatives of our firm. For this purpose, we are requesting Mr. K.M. Fraser of Messrs. Shaw Wallace & Co., Madras, to communicate with you for the purpose of arranging such a meeting.

We have the honour to be,
Sir,

I told him I did not think it possible for him to interview the Council. He next suggested an interview with the Member and the Dewan. I said that I wd be in a position to obtain orders if a formal request were made. No request has yet been rec'd.

These gentlemen saw me just now. Some partner of Shaw Wallace & Coy. proposes to interview the Dewan about the proposed artificial silk concern, some day after the 17th inst. I have told them that they will have to ascertain if that date would be convenient to the Dewan by writing to his Private Secretary. In the meantime, it would be well if the reply that should have gone to the Firm is now sent to it.

Dear Mr. Rama Rao,

You may perhaps like to know that Mr. Linton and a Parsee gentleman have been to see me twice in Mysore with reference to the projected artificial silk factory at Nanjangud.

The project seems now to have taken definite shape, and the help they are asking for now is limited to (1) a firm offer of electrical power at a reasonable rate and (2) a promise of help in acquiring 200 acres of land.

They came in yesterday with a view to placing these requests before the Dewan and yourself.

I understand from them that they are associated with Imperial Chemical Industries to the extent that they are buying their chemicals from them and using their offices in Bombay and Madras.

If you would like any enquiries made about their standing, I could very likely get the information for you through the Imperial Chemical Industries office.
